

XENIAL KITCHEN MANAGEMENT

Everything Your Kitchen Needs to Run Itself

The kitchen is the heart of the restaurant. With Xenial Kitchen Management your restaurant is “heart smart” pulling in omni-channel orders from anywhere and coordinating everyone in the “good food” mission. How much more efficient would your kitchen be with a visual display system that optimally coordinates food preparation and tracks every order’s progress from beginning to end regardless of how it’s ordered?

For a low, fixed monthly fee, Xenial Kitchen Management provides a state-of-the-art kitchen video system that even plays nice with your existing printers, bump bars and keyboards. Complete orders faster, seat more customers and rake in more \$\$\$ while increasing accuracy no matter how big the rush. Even new employees get the guidance they need to complete tasks flawlessly, so you’re never playing catch up.

Make your kitchen “crunch proof”

with everything it needs to be organized, accurate, efficient and fast—at crunch time or any time.

Xenial Kitchen Management Gives You The Power To:

- Reduce training time and labor costs
- Ensure order accuracy at high volumes
- Reduce mistakes while minimizing supervision
- Optimize kitchen operations for any volume
- Give customers fast, accurate food service at all times
- Eliminate capital expenses and IT costs
- Coordinate recipe management

Compatibility:

Runs on any Windows 7 (or higher) device, even your old video training system.

Available for the following POS solutions:

- Xenial Ordering
- XPIENT IRIS
- SICOM Encounter

Key Features:

- Unique routing technology enables rules-based order filtering for every station
- Display configurations can be customized based on volume and staffing levels
- Color highlights and display animations call attention to key details and alerts
- On-the-fly recipe look up shows product descriptions and instructions at the touch of a button
- Flexible platform allows customizable integration with video and print systems
- Bird’s eye view of kitchen operations keeps managers in control even when they’re away
- Order ready screen keeps customers apprised of order progress
- No IT involvement required for system set-up or configuration
- Cloud-based data storage and management, no IT servers required
